### REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: In view of applicants' argument, previous 103(a) rejection on claims 1-11 and 14-17 over Metzger (DE'152) in view of Hatsuda (JP'558) is hereby withdrawn. As correctly pointed out applicants, Hatsuda uses the term "stepwise manner" (in claim 3) to describe the relationship of the surface area ratio of printed area to discrete area between quality verifying features, and it is *not* a description of the relationship in *height* of the quality verifying features. Therefore, Metzger in view of Hatsuda does not teach or suggest present print control element having relief elements *with defined height differences*, which is formed in a non-image area of the elastomeric layer.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
